

As one of New York State's largest home care providers, we are passionate about what we do and strive to provide the highest quality care and support to our patients and their families.

All of our home care workers are Personal Care Aide Level II, have received intensive training and have passed a Department of Criminal Justice background check. In home services are supervised by a Registered Nurse and supported by a Direct Care Administrative team in the field. Services are available upon patient need, so can include a few hours per week up to round the clock care.

ElderChoice is approved to provide home care services through the TBI Waiver Program, as well as the NHTD Waiver program. We also work with many insurance companies and managed long term care programs, as well as accept private pay.

To make a referral for home care services and/or to receive more information, please call:
